Intelligent Locker Systems
Important things require secure systems

The Key-Box 7000 Series Intelligent Locker System Series is a flexible and smart solution that offers even more control over your valuables. The keypad comes with a display to provide a good overview and easy programming. The cabinets can handle up to 500 users (codes with 1-8 characters) and store up to 3,600 events. Just like our more advanced key management systems, you can administer system using our smart KeyWin light software. The cabinets are available in various models with 2 to 6 compartments.

All cabinets can be expanded using the expansion series, Expansion, by up to 15 cabinets in any combination. In other words you can have up to 96 compartments in the same system controlled via the main cabinet's keypad

Key-Box 7000 S is powered by KeyWin Light PC USB Software

KeyWin Light Software

The KeyWin Light PC program gives a better overview of the system series. You can check and control the system by plugging a USB flash drive with a service code into the cabinet. The event log is also downloaded to the USB flash drive, which you can then process on a computer

# Affordable Asset Storing Solutions

Key-Box Intelligent Asset Management
For all Types of Businesses and Organizations

Key-Box Lockers improve equipment availability, reduce down time, make users more accountable, reduce loss, improve record keeping

Portable Equipment

Communication Radios

Mobile Phones

Laptops and PDA's

Data Equipment

Power Plant Tools

For Storing/Securing all Businesses/Organizations/ Valuable Assets

The Key-Box KeyWin Light software provides a full audit trail and real time reporting, detailing who has used and accessed the cabinet and when. As a result, staff become more accountable and our customers have found that items are returned at the end of shifts. This leads to reduce security requirements with less loss, damage and liability

Benefits

- From 2 x compartments all the way up to 967
- Manage, control and report on the use of locker compartments
- Identify when the locker system was accessed and by whom
- Restrict access to specific staff and contractors to access the locker system to remove the stored items
- Improve shift start-ups by ensuring facility items are always in place and ready to use in the locker
- Completely remove the need for manual compartment use
- Reduce losses and damage by making users fully accountable
- Fully scalable to accommodate any number of compartments
- 24/7 Audit trails of all locker compartment access event

- Powder coating
- Steel 1.5mm

Accessories (E)
- Alarm contacts

Our Key-Box Automated Locker Storage Systems Save Time and Money for Businesses and Organizations by Providing Secure Storage for Valuable Assets
KeyWin-Light USB PC Key/Locker Management Software

KeyWin Light Software
Flexible overview for your key/and locker management system

KeyWin Light is a software that can be used with the System series for key cabinet and value box. You obtain monitoring and control by plugging a USB flash drive into the cabinet using a service code. The event log is also downloaded to the USB flash drive, which is then processed on a computer.

It is simple to add, delete or edit codes as well as to look up information in the event log and then to upload them to the cabinet again via the USB flash drive.

## Extremely easy to set up and use

KeyWin Light features

Easy to use
The administrator determines the members of staff who have access to a specific key by entering which user can log into the key cabinet or value box with his or her personal code

USB flash drive
Transfer your settings easily via a USB flash drive and enter them in the key cabinet or value box

Time Channel
Limit a groups use by setting a time channel. The group's keys are available when the time channel is active

Event Log
Export the event log from the key cabinet or value box to the PC program using the USB flash drive

Countdown Function
This function determines how many times the user can enter the key cabinet, value box or compartment

Export
You can always make a backup of the event log. Either via a CSV file which you can import to Excel or direct to a PDF file

Intelligent search functions
The search function finds everything in KeyWin, since it searches on files, email, contacts, groups, alarms etc. as fast as you type

Cabinet settings
In the settings, you set the number of doors you have in your system. You also choose a service code for program, key cabinet or value box

Back up
You can easily create backups for the entire key management program. They are automatically named with the date and time it is just as simple to restore the backup as it is to create it
