Quality North American Built

Time Access Systems Inc

Signal-Pro Signal Scheduling Timers

By Time Access Systems

Signal-Pro Bell/Buzzer Timers

Time Access Systems offers a full line of Signal-Pro programmable timers which can handle any switching arrangement. In most industrial lo-cations there are multiple shift START/END times with different schedules depending on the day of week, our timers can handle dozens of events per day with a different bell schedule for every day of the week. Our digital timers are truly the most Flexible 7 day 365 day tim-ers available, if you require a bell or signal to ring automatically at pre-determined times, then our full range of digital bell timers will provide your company with the most flexibility and convenience of any timers available today, we also carry 2 or more circuit models for companies that want to switch more than 1 circuit at a time.

Signal-Pro PT-1-2440 Signal Timer
