# Guard-Pro Automated Guard Patrol Tour Systems

## ARES Mobile 10K The Most Advanced And Reliable Guard Tour System In The Industry

**EASY TO USE.** The small, lightweight, durable tracking systems that ensure your personnel are making their rounds.

Simply touch the 10K recorder to the recording station “iButtons” and the location, date and time are recorded. The reader holds up to 5,461 transactions that can be easily downloaded to any PC running Pentium 11 (300MHz) or higher processor.

**Expandable** - You can add as many recorders and iButtons as needed, when and where you need them.

ARES Mobile 10K Portable Rounds Trackers have the strongest probe head, are made using heavy duty construction and made with stainless steel.

**Secure** – The 10K recorder is made of touch reinforced polycarbonate. No need to worry about anyone tampering with the stored guard tour information. This heavy duty unit withstands rain, mud grease and dust.

**Accountable** – Produces detailed guard tour reports by downloading the data to a PC with the included download cradle and Windows-based software.

### User Friendly

**Practical** – ARES Mobile 10K offers simple rounds tracking at an attractive price. The advanced ARES Mobile 10K system adds support for incident tracking with incident pad.

**Easy Data Download** – A full download (5,461 transactions) only takes three minutes. You will be advised of the progress and function status. Simply place the 10K data recorder on the docking cradle and the data will be transmitted to your computer.

- Easy rounds tracking
- Ideal for guards and security personnel, hospital or nursing home staff
- Can be exported to Microsoft Excel for easy viewing
- Works on a single PC environment
- Bi-Lingual operation (English/Spanish)
- Password protected

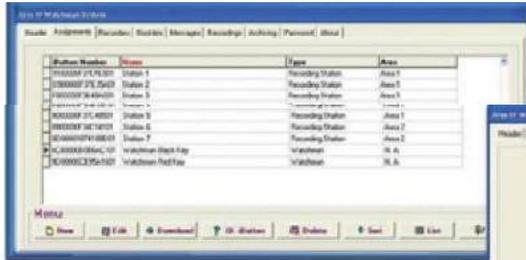

Includes everything from ARES Mobile 10K plus incident tracking with optional incident pad records information about the conditions encountered while completing rounds. You can program up to 9,999 incident codes such as Start Tour, End Tour, In/Out, Broken Window, Water Leak, Intruders, Fire Alarm, etc. to capture detailed information about the conditions at each station

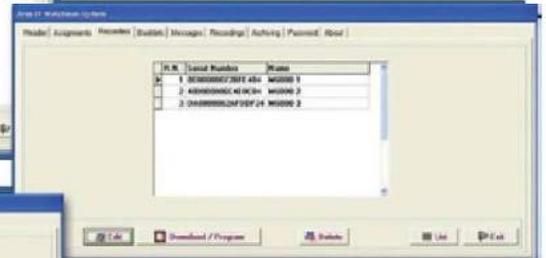

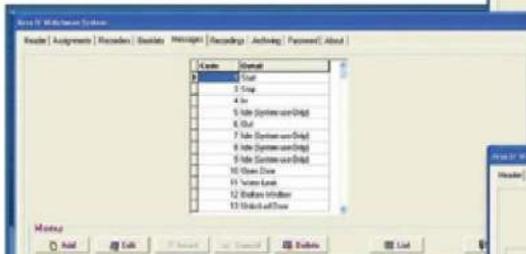

Weight: 150 grams  
 Size: 3.88"L x 1.36"H  
 Memory: Non Volatile (NVO RAM)  
 10 year life, 5,460  
 Recordings/recording cycle Power:  
 3 AAA alkaline 1.5 BDC Batteries,  
 last one year of 500,000  
 recordings Casing Material: Glass  
 Reinforced Polycarbonate  
 (General Electric-Lexan) Operation  
 Temperature: -40 to 85C ( -40 to  
 +185F)

ARES Guard Tour software is comprised of 10 folders that allow you to view and manage the data that is collected from the Mobile 10K hardware. Simply click on the tabs to get to data folders: Header, Assignments, Recorders, Booklets, Messages, Recordings, Archiving, Password and About. Recordings show the Date, Hour, Name and Incident, Area, Messages and the Watchman that was handling rounds during that time frame. It is easy to sort, view and export data. Numerous professional looking reports can be generated to review.

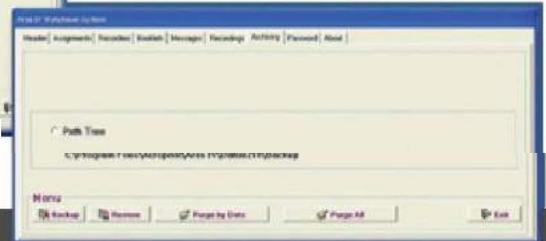

Multiple records can be set up on the system

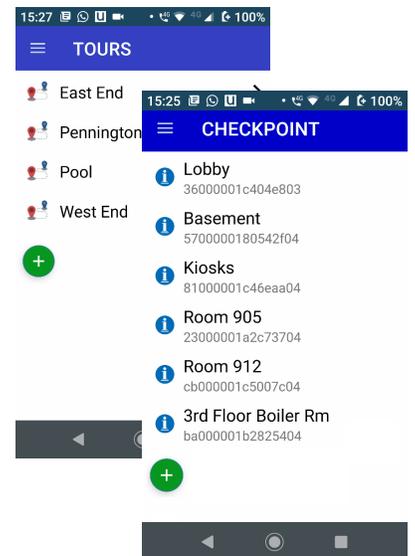

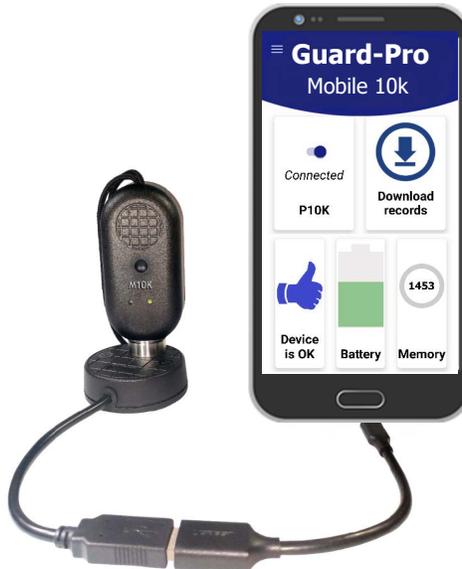

Data collection is archived to be referenced later

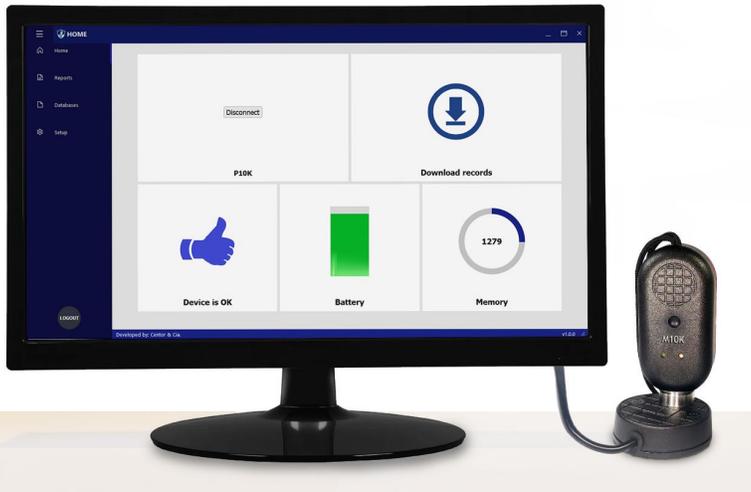

Using the incident tracking pad, customize messages can be tracked. For example, at station 4 a water leak was reported

## ARES Mobile 10K Affordable Guard Patrol Solutions

Guard-Pro ARES Mobile 10K – Remote Transmission Option with Wi-Fi enabled Android Tablets and Phones, Low Cost, effective IoT.

ARES Easy to use 10K-PC program, all you need to do, is connect the 10K data Recorder and a couple of clicks away, and you will have a comprehensive report in CSV and PDF formats.
