## New AMANO MJR-7000 EZ Computerized Time & Attendance Recorder With with Three Shift Capability Feature

# New AMANO MJR-7000 EZ Computerized Time & Attendance Recorder

Discover fast accurate payroll preparation with the MJR-7000 EZ computerized time and Attendance recorder. The MJR 7000 EZ automatically calculates total hours worked, separates overtime hours taking the "guess work" out of payroll processing which will save you time and money!

## Features & Benefits:

- Totals hours for up to 100 employees
- Calculates hours worked; separates regular and overtime hours
- Automatically advances year, month and day
- Programmable zones for late arrival or early work departure
- Automatic Daylight Saving Time adjustment
- Automatic break deduction

**MJR 7000 EZ Additional Features:** It automatically updates for daylight savings, the other MJR clocks must be reset every few years. The cards can be set for groups. As a result, it can do semi-monthly pay cycles, properly calculating overtime for each employee, as the individual employee is assigned a unique card number for the life of their employment. One example of a group: 100 time cards, two ranges. 000 - 049 and 050 - 099. 000-049 starts Thursday morning, ends Wednesday night. Thursday - Wednesday. 050-099 starts Wednesday night and ends Tuesday night. Wednesday - Tuesday.
