Are Your Employees Leaving The Facilities With Your Keys!

Just think of what the cost of a lost key might be for your facilities!

It could cost you thousands of dollars to re key or change the facilities locks not to mention the security issues that a misplaced/lost key can cause!

Our unique RF key fobs are extremely sensitive the RF detectors will always detect if your keys are leaving your facility

We have low cost solution to your key exiting problems with our key exit alert system

Ideal Secure Solutions Casino,s and All Sorts of Business and Organizations

Ensuring security for maintaining keys in any industry can be a daunting task that requires advanced solutions that address multiple needs. Whether at a Casino or Football game, there are thousands of employees, visitors and equipment that need to be monitored from a central location. A Exit Key Alert Systems provide facilities with the technology needed to solve this key critical problem.

The **RF** key fobs can be attached to key rings and configured to automatically trigger an alarm should the tagged key chain approach an exit. Many states require mandatory re-keying of slot machines if the keys are taken off the premises sounding the alarm before the keys leave the area, it can save the or business/organization thousands of dollars in re-keying costs!

CASINO FACILITIES

COMMERCIAL FACILITIES

LAW ENFORCEMENT

JAILS/CORRECTIONAL

Time Access Systems Inc. can provide the solution to your key tracking problems with our Key Exit Alert System. Our system will alert security if any of your employees attempt to leave the premises with the facilities keys. Our key exit alert system will simply pre-vent anyone from taking keys off site. The system not only works in tandem with all standard or automated key systems but will also work as a standalone solution. Time Access Systems We offer consultation and valuable recommendations for key management systems. We offer over 30 years of experience designing and implementing various types of systems and solutions for the gaming industry

Alert-Pro Innovative RF key exit alert systems are suitable for all sorts of Businesses/Organizations

Casino & Gaming Facilities: Alert-Pro key exit alert systems helps to monitor access by monitoring the movement of all slot machine keys as well as other critical keys can reduce the risk of unauthorized access to sensitive areas and in the event of a potential security breach involving a critical key leaving the premises an immediate alarm allows security staff or staff members to respond swiftly and mitigate any potential risk or threats to your facilities and assets.

Casino/Gaming Facilities

Correctional and Jail Facilities: Alert-Pro Key exit alert systems helps prevent unauthorized key movement like in law enforcement operations, there can be zero gaps in key security in correctional and jail facilities. The loss of any key could compromise their mission as well as safety. Key exit alert systems are an essential part for fully controlling access to secure cell blocks, administrative offices and other restricted areas of correctional facilities

Jail/Correctional Facilities

Law Enforcement Facilities: Law enforcement agencies rely on strict chain of custody protocols for their evidence rooms, armories, and other secure facilities. Any gaps in surveillance could compromise an ongoing investigation or even put the public at risk. A key exit alert system keeps keys in the facility and under your control at all times. Tracking ensures you always have a chain of command in making officers responsible for keys they have in their possession.

Law Enforcement Facilities

Corporate / Commercial Offices: Alert-Pro key exit alert systems can help secure your corporate offices and office facilities and areas, A key exit alert system provides a secure solution for managing employees and staff members from leaving the premises with your valuable keys for executive suites & offices, R&D areas and data centers. Instant alerting to any keys leaving the premises. With a key alert system you can minimize the risk of security breaches!

Commercial Prop. Offices

Hotels / Hospitality Facilities: Alert-Pro key exit alert systems helps to monitor master key Access by monitoring the movement of master keys, hotels & resorts can reduce the risk of unauthorized access to guest areas and backrooms and in the event of a potential security breach involving a master key leaving the premises an immediate alarm allows security staff or staff members to respond swiftly and mitigate any potential risk or threats to your facilities.

Hotels & Resort Facilities

Alert-Pro RF Key Exit Systems Specifications

The **Alert-Pro** key exit alert system is recommended for all facilities that require the use of a powerful, reliable facilities key exit system. The Alert-Pro is an all purpose system that is fully capable of protecting keys from leaving premises such as Casinos, Jails, Law Enforcement High Tech Facilities, Military, Secured Facilities etc. The Alert-Pro is the premier RF key exit alert detection system on the market and is available from Time Access Systems Inc.

System Specifications:

The Alert-Pro RF phazor detection system is a transceiver panel that requires only one antenna to make it work. This system can detect RF key fobs. The systems require no synchronization between multiple panels nor do they require etc. This will reduce installation time as well as servicing etc. The use of a transceiver system greatly reduces the instances of false "phantom" alarms. **Electrical:** Input 110 - 120 VAC - Output 14 VAC **Height:** 60.5 (152.4cm) - **Weight:** 11 lbs (5.7kg) - **Depth:** 1" (2.54cm) - **Width:** 14" (30.48cm) - **Frequency:** 8.2MHz

Alert-Pro Detection System Features:

- The Alert-Pro key exit alert system can detect RF key fobs approx 3 to 4 feet from either side of the panel
- Multiple units can be placed to protect a wider opening area
- System can be easily installed by the customer. The system comes with a 1 Year Alert-Pro Care warranty

Alert-Pro Phazor Detection Panels are a Quality North American Built Product!
