Affordable Key Management Solutions for all Facilities

Key-Box Intelligent Key/Asset Management For all Types of Businesses and Organizations

**For Storing/Securing all
Businesses/Organizations
Facility/Asset Keys**

9006 S Series

The Key-Box KeyWin Light software provides a full audit trail and real time reporting, detailing who has used and accessed the cabinet and when. As a result, staff become more accountable and our customers have found that keys are returned at the end of shifts. This leads to reduce security requirements with less loss, damage and liability

Benefits

- 6 Key storage compartments
- Manage, control and report on the use of facility key cabinet
- Identify when the cabinet was accessed and by whom
- Restrict access to specific staff and contractors to access the key cabinet to remove the keys
- Improve shift start-ups by ensuring facilities keys are always in place and ready to use in the cabinet
- Completely remove the need for manual key issue
- Reduce losses and damage by making users fully accountable
- Fully scalable to accommodate any number of compartments
- 24/7 Audit trails of all key cabinet compartment access event

Key-Box 9006 S Series Smart Key Management Solutions for Simpler Security Needs

KeyWin-Light USB PC Key Management Software

KeyWin Light Software

Flexible overview for your key management system

KeyWin Light is a software that can be used with the System series for key cabinet and value box. You obtain monitoring and control by plugging a USB flash drive into the cabinet using a service code. The event log is also downloaded to the USB flash drive, which is then processed on a computer.

It is simple to add, delete or edit codes as well as to look up information in the event log and then to upload them to the cabinet again via the USB flash drive.

Extremely easy to set up and use

KeyWin Light features

Easy to use

The administrator determines the members of staff who have access to a specific key by entering which user can log into the key cabinet or value box with his or her personal code

USB flash drive

Transfer your settings easily via a USB flash drive and enter them in the key cabinet or value box

Time Channel

Limit a groups use by setting a time channel. The group's keys are available when the time channel is active

Event Log

Export the event log from the key cabinet or value box to the PC program using the USB flash drive

Countdown Function

This function determines how many times the user can enter the key cabinet, value box or compartment

Export

You can always make a backup of the event log. Either via a CSV file which you can import to Excel or direct to a PDF file

Intelligent search functions

The search function finds everything in KeyWin, since it searches on files, email, contacts, groups, alarms etc. as fast as you type

Cabinet settings

In the settings, you set the number of doors you have in your system. You also choose a service code for program, key cabinet or value box

Back up

You can easily create backups for the entire key management program. They are automatically named with the date and time it is just as simple to restore the backup as it is to create it
