

# RF Key Exit Alert System

Affordable, Secure Key Asset Management Solutions

By Time Access Systems inc

*Do you know where your keys are?*

## ARE YOUR EMPLOYEES LEAVING THE FACILITIES WITH YOUR VALUABLE KEYS!

**We have low cost solution to your key exiting problems with our key exit alert system**

***Just think of what the cost of a mislaid key might be for your facilities!***

It could cost you thousands of dollars to re key or change the facilities locks not to mention the security issues that a misplaced/lost key can cause!

Our unique RF key fobs are extremely sensitive the door detectors will always detect if your keys are leaving your facility

The key ring security RF key fobs are great for protecting keys and secured doorways. These RF mini stylus key fobs with tamper proof key rings are widely used in facilities, Casinos, Prisons, libraries, schools, retail stores, office buildings and law enforcement facilities

**Time Access Systems Inc.** can provide the solution to your key tracking problems with our Key Exit Alert System. Our system will alert security if any of your employees attempt to leave the premises with the facilities keys. Our key exit alert system will simply prevent anyone from taking keys off site. The system not only works in tandem with all standard or automated key management systems but will also work as a standalone solution. Time Access Systems offer a consultation and valuable recommendations for key management systems. We offer over 30 years of experience designing and implementing various types of systems and solutions for the gaming industry
